

Quality driver education and training for teens, that imparts both responsible attitudes and safe, defensive driving techniques is our mission. Teen driving is a leading cause of fatal injury among our nation's youth. Our teen driver program is designed to emphasize the attitudes that insure the safety of young drivers. Our goal is to provide a comprehensive teen drivers education and training course that will change these grim statistics and to do that at a reasonable price. We are dedicated to providing the very best driving instruction for teens whether you choose drivers education in the classroom, or our in-car driver training for your teens.

Classroom instruction is taught by professional instructors, who are dedicated to imparting road safety to today's youth, through discussion, video presentations and creative teaching methods.

The in-car training instructors are licensed, highly qualified, professional trainers, who are committed to imparting respect for other motorists, as well as, defensive driving skills.

Session 1 (1 Hour)

Welcome
Safety Devices
Safety Statistics

Session 2 (1 Hour)

Road Knowledge
Signs
Aarto (New Driver Points system)
Main Causes of Collisions
Hazards

Session 3(1 Hour)
